Old Business

Bee Package Orders

- PLEASE NOTE: We have a tentative delivery window for our packaged bee orders this coming weekend. Please stay posted. We know this is a holiday weekend, but the delivery date is out of our control. If you will not be able to pick up your package(s), please make arrangements with someone to do this for you.

New Business

A new honey bee infection transmitted by Varroa mites?

Presented by Jim Burritt

- Speaking about his latest research
- Hemocyte profiling
- bacterial infection of adult honey bees transmitted by Varroa mite
- Immunological probes to honey bee immune functions

Check out Jim's work at <http://journals.plos.org/plosone/>
Search 'Burritt' to access his research.
